

About Us...

The **Beverley Town Handbell Ringers** (Registered Charity No 515954) was formed in February, 1981 and, by the loan of a set of old disused bells from Elland in the West Riding of Yorkshire, were able to set about raising the funds to buy the present 'long set' purchased in August, 1983.

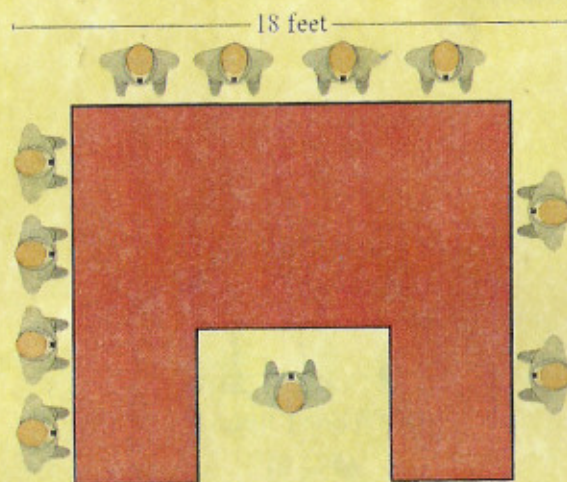

We play on a set of 132 Whitechapel bells which cover a range of five chromatic octaves. Using some of the 60 duplicated and triplicated bells permits the execution of the fast chromatic runs.

The ten ringers, four treble, four tenor and two bass, ring 'off table' in a traditional 'Yorkshire Style' and are directed and conducted by John Atkinson.

Requirements

We are a self sufficient group bringing all our own equipment including tables, all we require is a space 18 feet by 14 feet on a level floor or stage.

What we can do for you...

The **Beverley Town Handbell Ringers** is available for concert performances and other musical entertainment throughout the year.

Type of music:

A varied selection of light classical and modern pieces, each lasting no longer than five minutes many of which are well known marches, waltzes and, when appropriate, seasonal Christmas music.

Duration of performance:

We can provide an evening's entertainment of 1 ½ to 2 hours with an opportunity for audience participation and an insight into the bells and the ringing style.

'Audience Participation'

The band is also happy to participate in events shared with other groups.

Joint concert with the 'Driffield Silver Band'

'Ringing World Roadshow' Coventry 2009
